

Hello Parents, Guardians, Students, and Community Partners,

Welcome to another great year at SunEd High School of South Broward and North Broward! We are very excited to have each and every one of you to share this journey with us as we continue on our path to becoming a school of excellence! At this time, we are returning to face-to-face, in-school instruction for all students as per Broward County Public Schools guidelines. Although no school improvement ratings were issued due to the pandemic for the last two school years, SunEd High Schools are very proud to that we continue to be rated “Commendable” on School Improvement Rating results for the State of Florida for 2019 and ranked in the top 5% of alternative charter schools for student learning gains. Our Margate Campus is #1 for student learning gains among “Commendable” rated schools in Broward County. We are making tremendous strides in becoming a school of excellence!

The “at your pace”, safe atmosphere we offer, which allows many students to catch up, recover credits, increase GPA and graduate faster, continues to increase opportunities for students to be successful! All it takes is effort and commitment from the student! We offer many wonderful resources to our students to make their journey successful. Reading is a crucial component in education and is the underlying major skill for every subject. Therefore, increasing reading skills is our major focus. Qualified students receive remediation in Reading skills every day. However, the additional practice received through the Reading Plus program has proven to improve reading skills and student success on required assessments. We are very excited to continue to offer this program this year to our students! All curriculum is available online and in house. Every teacher has a Google Classroom where students sign-in daily and receive assignments, guidance, and one on one tutorials when needed.

Parent involvement and participation in the education process has proven to yield higher student success rates. Therefore, we encourage all of our parents, guardians and community agencies to become our partners in helping the students at SunEd achieve success academically, socially, and behaviorally. We welcome the input and feedback of all of our stakeholders throughout the school year. The school sends out many emails, flyers, and newsletters during the school year keeping our stakeholders apprised of the many successes we achieve. Our mentoring program also provides a wealth of opportunities for students to receive the help and encouragement they need through their journey. If you have any questions, comments or concerns, please feel free to give us a call!

Your Principal,

Ms. Tammy Lara, Lead Principal
