SunEd High Mission Statement

The mission of SunEd High is to provide our students with a safe and nurturing learning environment that will help them achieve their goals— both academically and personally. We believe that by working with families and the community, all students can achieve their maximum potential. We are committed to working together to provide each student with the best possible education while instilling in every student the belief that they can succeed and become responsible, contributing members of society.

Principal's Corner

Welcome to another great year at SunEd High School of South Broward! We are very excited to have each and every one of you to share this journey with us as we continue on our path to becoming a school of excellence! The “at your pace”, safe atmosphere we offer, which allows many students to catch up, recover credits, increase GPA and graduate faster, continues to increase opportunities for students to be successful! All it takes is effort and commitment from the student! Parent involvement and participation in the education process has proven to yield higher student success rates. Therefore, we encourage all of our parents, guardians and community agencies to become our partners in helping the students at SunEd achieve success academically, socially, and behaviorally.

Your Principal,
Ms. Lara
